

The bottom triangle has a question mark in place of a missing number. *Can you figure what the missing number should be by observing the pattern in the top two triangles?*

What number goes in the box that has the question mark in it? Hint: The logic to this puzzle is vertical instead of horizontal.

6	5	12
12	15	36
36	60	144
144	300	?
