

Sudoku Puzzle 1- Easy

Here is an easy *Sudoku Puzzle* for students to start with. Most of the cells are already filled in with numbers. There are a total of nine small squares that make up the entire large square. As you can see, each of the nine small squares has two cells that are missing numbers.

You solve a Sudoku puzzle by filling in the blank cells. Every row must contain each of the numbers just once; 1, 2, 3, 4, 5, 6, 7, 8, 9. Every column must also contain each of the numbers just once; 1, 2, 3, 4, 5, 6, 7, 8, 9. And also every small square (3x3 region) should also contain each of the numbers just once; 1, 2, 3, 4, 5, 6, 7, 8, 9.

Give it a try and Have Fun!

	2		4	5	6	7	8	9
4	5	7		8		2	3	6
6	8	9	2	3	7		4	
		5	3	6	2	9	7	4
2	7	4		9		6	5	3
3	9	6	5	7	4	8		
	4		6	1	8	3	9	7
7	6	1		4		5	2	8
9	3	8	7	2	5		6
